

DELIVERY

At Mainus Construction, we can deliver your shed to your site completely finished. Your shed is constructed in our climate controlled shed shop under ideal conditions. You provide us with a level site for the shed, or we can prepare the site for you. We can usually have the shed delivered and set in about an hour using our industry leading Shed Mule in combination with our shed delivery trailer. No damage to your yard will occur with our process. No construction hassles, no worrying about the weather. If your site does not lend itself for a completed shed to be delivered, we can build the shed on site as well.

**Hours of Operation: Monday - Friday ~ 7:00am - 5:30pm
Saturday & Sunday ~ By Appointment**

ABOUT US

Owner Tom Mainus brings 30 years of carpentry experience to Mainus Construction's outstanding custom shed building service. Tom learned the art of shed building from his father-in-law, who has built sheds from the same location in Waterford for over 40 years. Mainus Construction continues the family tradition of dedicated quality craftsmanship and friendly, honest service.

Mainus Construction operates from a fully equipped Waterford, WI shed building shop. We serve satisfied customers living all around southeast WI and northern Illinois. Our outstanding shed building service stands out above all others – not only are Mainus Construction sheds custom built to each individual's unique storage needs, they are delivered to your home or farm in a completely finished state. We build all of our sheds from the ground up to your exact shed specifications. We can accommodate your needs and swap out features like doors and windows to any custom arrangement on our buildings.

Mainus Construction has been designing and constructing quality sheds perfect for any application for over three decades. If you have any concerns about your Mainus Construction shed, we have the answers. We'll never hand your call off to a third party contractor. We are dedicated to our customers 100%.
